AVERAGE COSTS ASSOCIATED WITH DEER-VEHICLE COLLISIONS PER YEAR

\$4 BILLION

TIPS TO HELP AVOID A CRASH:

- Vehicle-deer crashes occur year-round, but be especially alert in spring and fall.
- Be alert, especially at dawn and dusk. If you see one, slow down.
- Stay aware, awake and sober.
- Signs at deer crossing areas alert you of the possible presence of deer.
- Deer are herd animals and frequently travel in single file. If you see one deer cross the road, chances are there are more waiting.
- Use high-beams at night if there is no oncoming traffic. The lights illuminate deer eyes.
- Don't rely on gimmicks, flashing your high-beam headlights or honking your horn to deter deer.

IF A CRASH IS UNAVOIDABLE:

- Don't swerve. Brake firmly, hold onto the steering wheel and bring your vehicle to a controlled stop.
- Pull off the road, turn on your emergency flashers and be cautious of other traffic if you exit your vehicle.
- Report the crash to the nearest police agency and your insurance company.
- Do not try to assist the deer.
