

VILLAGE OF LAUREL HOLLOW BOARD OF ZONING APPEALS
AREA VARIANCE FINDINGS AND DECISION

A public hearing of the Board of Zoning Appeals was held in the Village Hall, Village of Laurel Hollow, on March 19, 2019 at 7:30 p.m. relative to the following matter:

Applicant: Barbara & Walter Schmidt On behalf of: themselves

Property Located at: 1486 Laurel Hollow Road, Laurel Hollow

Sec. 26 Blk. C Lot(s) 307, 2117

Zoning District: Residential Case #: ZV5-2018

Requirement for which Variance is requested: Total surface coverage shall not exceed 20% of the lot area. Proposed=29.91% ; Existing=28.66%

Applicable Section(s) of Chapter 145-5(A)(1)(d)

At said hearing the Board considered the following factors and made determinations as stated.

1) Will an undesirable change be produced in the character of the neighborhood or be a detriment to nearby properties?

yes no Reason: The variance relief sought is reasonable and no adverse impacts to surrounding properties will result.

2) Can the benefit sought by the applicant be achieved by a feasible alternative to the variance?

yes no Reason: The location of the home and topography militate in favor of the relief sought.

3) Is the variance requested substantial?

yes no Reason: See #1 and #2 above.

4) Will the variance have an adverse impact on the physical or environmental conditions in the neighborhood?

yes no Reason: See #1 and #2 above.

5) Is the alleged difficulty self-created?

yes no Reason: See #1 and #2 above.

The Board of Appeals, after taking into consideration the above five factors, finds that:

The benefit to the applicant does not outweigh the detriment to the Neighborhood or community and therefore the variance requested is denied.

X The benefit to the applicant does outweigh the detriment to the neighborhood or community, and the Board of Zoning Appeals further finds that variances of surface coverage of Sections: 145-5(A)(1)(d) of the Zoning Code is the minimum variance that should be granted in order to preserve and protect the character of the neighborhood and the health, safety and welfare of the community because negative impacts will not result.

and for these reasons the variance is granted with conditions as indicated.

CONDITIONS: The Board of Zoning Appeals finds that the following conditions are necessary in order to minimize adverse impacts upon the neighborhood or community, for the reasons following:

Condition #1: N/A

Adverse impact to be minimized:

Condition #2:

Adverse impact to be minimized:

Condition #3:

Adverse impact to be minimized:
