**Subject:** Cancellation of Special Meeting on Lab Construction

Dear Neighbor:

Because of a late influx of additional documents by the Lab, our forced closure of Village Hall for public access due to COVID, and the inability to make the extensive documentation available online for a fair, timely review by the public prior to the hearing, the Special Meeting on the proposed Lab Construction is cancelled. Our residents will be notified when a new date is scheduled. Meanwhile, another Swiftreach will be sent when the documents are finally available online. Thank you for your patience and understanding.

Regards, Mayor Dan DeVita
