**Subject:** Laurel Hollow Beach Remains Closed

Dear Neighbor:

The Nassau County Board of Health informed us today that the samples taken from our beach waters yesterday still have high bacteria levels. Consequently, the beach remains closed for swimming today. This was the third straight day of failed test results. Nevertheless, the Board of Health collected another sample today and will let us know the results tomorrow. Meanwhile, let's hope for some powerful tidal flushes in the next few days.

Mayor Dan DeVita
