Subject: Yet Another Reminder Lock Your Vehicles

Dear Neighbor:

We had something of a reprieve from vehicle thefts in our Village over the past month even though other North Shore villages have continued to be hit. However, this past weekend thieves struck our Village again stealing an unlocked vehicle with the key still inside the vehicle. Again, these are crimes of opportunity. Take away the opportunity from these creeps--lock your vehicle, remove valuables from your car, take the key fob out of the vehicle and store it in a box or drawer inside your house. Remind your loved ones to do the same. Be well.
